September 23rd

START EMERGENCY CLIMATE ACTION PLAN

1. Get organized. Promote an initial meeting to manage eco-active events with your colleagues.

- a. Create a work committee...
- **b.** bAssess the time you have and the resources available.
- c. Puedes repartir las actividades de diferentes maneras: por ejes temáticos, niveles educativos, áreas académicas...

September 25th

ENERGY EFFICIENCY AND

WASTE MANAGEMENT

- 3 Energy Efficiencya:
 - a. Offer proposals to the school board on how to make buildings, windows, blinds, lights and water consumption more eco-efficient and raise awareness of how energy is wasted (ie. Opening windows with the heating on, turning on lights only when necessary, etc.).
 - **b.** Promote green playgrounds, gardens, reforestation...
- 4. Waste managements: Make sure there are suitable recycling bins.
 - **a.** Zero plastics: Avoid using single-use plastic containers. Together we can achieve a plastic free school.

Climate Action Week 27S

#275

September 24th MOBILITY

- 2. Mobility workshop. The overuse of privately owned vehicles disrupts the mobility of school zones and increases the numbers of accidents within the educational community especially at drop-off and pick-up times. Students enrolling in schools close to home should become a priority again for administrations, but you can also contribute to improving mobility.
 - **a.** Get to school by using public transport, bicycle or on foot; and if not possible, carpool.
 - b. Prepare proposals for improving travel and accessibility to your school and present them to your town hall.
 - **c.** Organize a carpool group for your school. You will save time, money and decrease pollution.
 - d. Create posters with your students that encourage families to find sustainable ways of getting to school. It is important to promote respect for traffic regulations, parking in appropriate areas and should offer alternatives to driving privately owned cars.

September 26th

PREPARING MOBILIZATION, FLEA MARKET AND FOOD

- 5. Poster workshop, t-shirts, videos about sustainability to prepare for 27S day.
- 6. Meal Options:
 - **a.** Come up with a healthy cafeteria and/or school lunch menu (yes to fruit and no to processed foods and sugary beverages).
 - **b.** Drink tap water when possible. Water bottle decoration contest.
- The Flea Market: Sustainable Book/Toy/Clothing Exchange

September 27th THE BIG DAY

- 8. Festive Activities & Call to Action: Eco-friendly storytelling and music workshop (live music, eco-playlist...), exhibition of work from previous days, awards ceremony... Conclude the event by dedicating five minutes during recess time to our climate. It's time for music, posters, t-shirts, videos... Finalizamos con la concentración con cinco minutos por el clima en la hora del recreo. Es el momento de música, pancartas, camisetas, vídeos....
- 9. Make your actions known: upload images and videos about your schools involvement to social media with the hashtag #Teach4Climate
- 10. Attend the call to action event by public transport, participate, fight. You cannot teach on a dead planet.
